1. Definition

The purpose of this report is to identify kids who were removed from their home and who entered out of home care. The report will provide basic placement data and also include current IV-E eligibility determination information. It will also be used to monitor new placements and ensure timely completion of IV-E eligibility determination. Discharges from out of home care placements are also included in this report.

2. Initial Data Scrape

Pull in all children that have an approved Out of Home Placement within the report query dates. New placements will be included only if the removal flag = 'Y' and the placement has been approved. Depending on the value of the parameter chosen, select placements where the placement start date is within the query period or the date the placement was approved in eWiSACWIS is within the query period.

3. Parameters:

3.1 Parameter Description

- 1) Report Begin Date
- 2) Report End Date
- 3) County (scheduled runs = "ALL")
- 4) Run Type (scheduled runs = "R")

Parameter	Columns	Length	Notes
Jobname	1 – 6	6	"FM0301"
Filler	7	1	"*"
Begin Date	8-15	8	MMDDYYYY
Filler	16	1	"*"
End Date	17-24	8	MMDDYYYY
